PROFILE

I am an Information Technology graduate with skills in front-end web development and IT support. I have a strong interest in cybersecurity, particularly in SOC and NOC operations, as well as data protection and risk mitigation. I am eager to begin my career in a junior role where I can apply my skills, support IT operations, and continue developing my expertise.

STRENGTH

- Strong teamwork and time management skills, with the ability to collaborate effectively in group environments and meet deadlines
- Detail-oriented with strong problem-solving abilities in technical and system-related tasks
- Self-motivated learner with a continuous improvement mindset and willingness to upskill in emerging technologies.
