PROFILE

I am an Information Technology graduate with skills in front-end web development and IT support. I have a strong interest in cybersecurity, particularly in SOC and NOC operations, as well as data protection and risk mitigation. I am eager to begin my career in a junior role where I can apply my skills, support IT operations, and continue developing my expertise.

STRENGTH

- **Strong teamwork and time management skills, with the ability to collaborate effectively in group environments and meet deadlines**
- **Detail-oriented with strong problem-solving abilities in technical and system-related tasks**
- **Self-motivated learner with a continuous improvement mindset and willingness to upskill in emerging technologies.**

WORK EXPERIENCE

PROPnex CHERAS (INTERNSHIP) FEB-JULY 2025

- Managed photography/videography and edited digital content using Canva & CapCut.
- Provided IT support and handled company's social media platforms, improving engagement.

JD SPORTS (SALES PROMOTER) AUG-SEP 2023

- Gained teamwork and communication experience through direct customer interaction.
