Dear Hiring Manager,

I am writing to express my interest in an entry-level Information Technology or Cybersecurity position at your company. As a recent graduate in Information Technology, I am eager to apply my technical knowledge, gain hands-on experience, and contribute to your team. I will be available to join at the beginning of September.

In addition, I have completed certifications from EC-Council, including Ethical Hacking, Network Defense, and Security Specialist. Through these certifications, I gained foundational knowledge in identifying vulnerabilities, implementing basic security measures, and understanding network security concepts. I am particularly interested in roles involving system security, including SOC Analyst, NOC Analyst, IT Support, and Data Protection.

I am a fast learner with strong attention to detail and the ability to adapt quickly to new environments. I am committed to giving my best in every task entrusted to me and always strive to perform my work with dedication, professionalism, and a positive attitude. As a fresh graduate, I am eager to further develop my knowledge, gain valuable hands-on experience, and learn from experienced professionals. Given the opportunity, I am confident that I can contribute positively to your team while continuously improving my technical and professional skills.

I would welcome the opportunity to discuss how my background, skills, and certifications align with your organization's needs. Thank you for your time and consideration. I sincerely hope to be given the opportunity to prove my abilities, contribute to your organization, and build my knowledge and experience while growing as an IT professional.

Yours sincerely,
Dharveen Durai
